

Project Management Skills

CompTIA Project+™ Certification

Employing a project team with high-quality project management skills is essential for successful business operations. Missing a project deadline or delivering less than what is expected can drastically impact the bottom line.

CompTIA Project+ ensures that project managers have the necessary skills to complete projects on time and within budget. The exam covers the entire project life cycle from initiation and planning through execution, acceptance, support and closure.

Earning CompTIA Project+ shows a candidate's ability to prepare project scope documents, get stakeholder's support, and coordinate and manage the project team. With added experience, CompTIA Project+ can be a stepping stone to advanced project management certifications, such as PMI's Project Management Professional (PMP) certification.

Candidates for CompTIA Project+:

- Project Manager
- Business Analyst
- Project Team Member

CompTIA Certification Programs

CompTIA is the world's largest provider of vendor-neutral certifications. CompTIA certifications are developed with the support of leading technology companies and organizations, and validated by field experts from around the world.

"CompTIA Project+ certification is a great way to educate our Project Management Team. It grants credibility to our internal stakeholders and customers."

- Ven Sivarajan,
Engagement Manager
CDW

"Project management skills are so critical to organizations today and CompTIA Project + ensures an individual has the core skills they need every day—communication, planning, vendor management, and team-building."

- Lisa-Ann Barnes,
President
IreeTec

Project Management Skills

CompTIA Project+ validates that individuals possess the skills to positively impact project performance and business outcomes.

The exam covers the complete project management process and follows industry-established best practices.

CompTIA Project+ is supported by top technology companies and organizations.

CDW requires CompTIA Project+ in certain positions, and the certification is recommended for project managers at Alltel, Dell, Ricoh and the U.S. Dept. of State.

CompTIA Project+ creates best practices and uniform processes.

CompTIA Project+ ensures project managers have the skills to complete projects on time and within budget, and creates a common project management language among project team members.
